GT55 TB Commercial Entrance

The Optio GT55 thermally broken aluminium commercial door system provides the most comprehensive PAS24 security for single, double door and fixed panel.

DESIGN FEATURES AND OPTIONS

- The most comprehensive PAS24 and SBD certified system on the market today – panic, mechanical and electro mechanical locking
- Accepts 24mm – 31mm double or triple glazing
- Max door leaf (double) 2000mm x 2180mm
- Max panel weight 110kg
- Double acting central pivot door open in and out options

U-values based on CFN size door (1000mm x 2180mm) using 1.0 W/m²K double glazing with warm edge Swisspacer V bar. All weather test data taken from BS EN 4325-1. Part of PAS 238 based upon the highest performing door configuration. Sound insulation values are Rw reduction values and are based on tests using acoustic glazing. Please visit aluk.co.uk to download all BIM components and CAD files.
 1. AWW wind results for GT55NI Screening based upon internal test results only. 2. U-value calculation in accordance EN 10077-2, single door size 1000mm x 2180mm. 3. U-value calculation in accordance EN 10077-2, double door size 2000mm x 2180mm. 4. U-value calculation in accordance EN 10077-2, screen size 2000mm x 2180mm. 5. GT55 TB max weight based upon the Dorma R3837 door closer. 6. GT55 NI max weight based upon the Adams Rite ARCS1N door closer.
